How do I vote in the general election?

Remember:
- Rank the candidates you like in order of preference.
- Your **favorite** is your **1st choice**.
- Ranking other candidates **doesn't** affect your 1st choice.
- Ranking additional candidates ensures that you have a voice in choosing your representative, even if that person is not your first choice.

RANKED CHOICE VOTING

How are votes counted in the ranked choice voting general election?

1. Everyone has only **one** vote, if a candidate receives a **majority of first-choice votes (50%+1), they win.**

2. If no candidate receives a majority, the candidate with the fewest votes is eliminated and voters that ranked that candidate 1st have their vote counted for their next choice. This process continues until one candidate receives a majority of voters' choices.
